Rachel

Cardiovascular Science | University College London

Rachel is a fifth-year medical student at Barts and The London School of Medicine and Dentistry, currently intercalating in an MSc in Cardiovascular Sciences at UCL. She achieved A* grades in Chemistry and Psychology at A-level, and her interests now sit firmly in cardiology and cardiothoracic surgery.

Her academic record is impressively strong. She has won the Riddoch Frears Prize in Neurology for an essay on brain resilience, taken first prize and the Hughes medal for a systematic review presented at a national anaesthesiology forum, and published a peer-reviewed case report in BMJ Case Reports.

Rachel has vast tutoring experience, from 11+ Mathematics and English to A-level Chemistry, and she taught the Explore Medicine course at Oxford Royale Academy across the Universities of Oxford and Cambridge.

Industy **Visits**

Choose your future **with confidence**

Students will gain exclusive access to leading Medicine businesses and partake in bespoke, interactive sessions to maximise their applications. Take a look at some of our example industry visits.

Hospice

Step into the world of palliative medicine and discover how compassionate healthcare makes a difference at every stage of life. Spend a unique day with palliative doctors and nurses at North London Hospice, gaining first-hand insight into the principles of palliative care, patient-centred practice, and the vital role of multidisciplinary teams. A meaningful experience that offers a deeper perspective on medicine, empathy, and the human side of healthcare.

King’s College London: Emergency Simulations

Experience the intensity of emergency medicine in a high-fidelity simulated environment at King’s College Hospital. Work through realistic clinical scenarios involving cardiac arrests, acute confusion, and serious infections, developing rapid decision-making, teamwork, and communication skills while gaining an insight into how healthcare professionals respond under pressure.

> *Exposure to new clinical techniques and skills that I wouldn't have otherwise had the opportunity to experience. Our supervisor was extremely kind and engaging, and I felt she went above and beyond to make sure that we felt fufilled and prepared after this week, whilst still making it enjoyable. I feel as if I have gained a multitude of new skills and gained advice from people that are in the position I aspire to be in eventually.*

Interactive **Workshops**

Choose your future **with confidence**

Workshops are specifically designed to bridge the gap between educational theory and real-world execution. Students gain the opportunity to reality test their future, gain practical, portfolio-ready skills and benefit from direct networking and mentorship opportunities.*

UCAT	Get ahead with a focused introduction to the UCAT, exploring the structure of the exam before diving into each section in detail. Learn proven exam techniques, time-management strategies, and approaches to tackling challenging questions, giving you the confidence and skills to perform at your best on test day.
Clinical Skills	Discover how doctors examine the human body and use clinical observations to understand a patient's health. Build a strong foundation in anatomy and basic medical examination skills, learning how to inspect the hands, face, and chest, as well as practise palpation and auscultation. Gain hands-on insight into essential clinical techniques while developing the confidence and precision needed in medical practice.
Laparoscopic Surgery	Step inside the world of modern surgery and discover how camera-assisted techniques are transforming patient care. Learn how minimally invasive procedures are performed and gain hands-on experience using surgical cameras and specialist equipment similar to those used in operating theatres. Explore how technology, precision, and surgical skill come together to support safer, less invasive procedures.
History Taking	Discover why communication and teamwork are at the heart of effective medical care. Develop essential verbal and non-verbal communication skills through history-taking and patient interactions, while learning how to build confidence and demonstrate a professional bedside manner. Explore how multidisciplinary teams (MDTs) work together across different healthcare roles to deliver safe, effective, and patient-centred care.
Examinations	Learn how doctors use patient histories and symptoms to identify possible causes of illness and injury. Develop clinical reasoning skills and discover how this information guides diagnosis and patient care.
Audiology and Tinnitus	Explore how psychology and medicine work together to support patients with tinnitus. Discover how CBT, anxiety, and attention can influence sensory experiences and learn how psychological interventions can improve patient outcomes. Gain insight into the mind–body connection and the role of psychology in managing complex health conditions.
Medical Ethics	Explore the core principles of medical ethics, including autonomy, beneficence, non-maleficence, and justice. Through real-world scenarios and discussion, learn how healthcare professionals navigate difficult decisions, ethical dilemmas, and patient-centred care while balancing competing needs and responsibilities.

Don't just take our word for it, have a look at what some of our alumni thought of their experience.

★★★★★ Medicine

I really enjoyed the practical activities, we learnt suturing and did a simulated surgery. I also like that we got to talk to real doctors. I'd definitely recommend this!

98.9%

Satisfaction rate from students who have taken part in a Career Camp

★★★★★ Law 2026

The summer camps were really insightful! I attended the Law camp and learnt a lot about the profession in a practical way. We went to the Royal Courts of Justice, did a mock trial, and had some talks from lawyers.

99%

of students say they would recommend Career Camps to a friend

★★★★★ Psychology 2026

The sessions were extremely valuable and engaging. What impressed me most was how professionally the tutors managed to give each student individual attention while keeping them interested, involved and enthusiastic throughout the programme

★★★★★ Chem Eng 2026

Exposure to new clinical techniques and skills that I wouldn't have otherwise had the opportunity to experience. Our supervisor was extremely kind and engaging, and I felt she went above and beyond to make sure that we felt fulfilled and prepared after this week, whilst still making it enjoyable. I feel as if I have gained a multitude of new skills and gained advice from people that are in the position I aspire to be in eventually.

★★★★★ Finance 2026

I found the Banking and Finance work experience really useful. I got great exposure through the places our leader took us and learned a lot, despite knowing very little at the start. I'd recommend it to anyone interested in the field.
